PROFESSIONAL EXPERIENCE

LABCORP DRUG DEVELOPMENT

SR MANAGER AI GOVERNANCE LEAD
Geneva, CH
Feb 2025 - Now

Leading AI strategy and transformation within the central lab and Bio Analytical at Labcorp. Driving the integration of AI-driven solutions into business operations through strategy planning, governance, and cross-functional collaboration.
Focused on optimizing AI adoption, aligning initiatives with business objectives, and ensuring long-term impact on efficiency and innovation. Responsible for AI roadmap development, stakeholder engagement, and change management to support digital transformation in clinical trial operations.
Key AI Projects:

- Internal Chat Agent
- Regulatory document translation
- Document mining for clinical trials setup
- Workload and supply forecasting
- Quality Events Analysis
- AI Engagement program for company-wide use

GLOBAL SR TEAM MANAGER COE
Geneva, CH
2018 – Jan 2025

Focused primarily on PM Liaison, training, and capability building to support Global Project Management excellence and operational efficiency. Led key initiatives in process improvement, quality, and strategic project support. In the final years, directed the Central Laboratory and Bio Analytical AI Governance effort, advancing responsible AI integration and portfolio alignment.

SR PROJECT MANAGER
Geneva, CH
2015 - 2018

Acted as the primary liaison between our company and clients, to ensure the successful management of global clinical trials through compliance with our strategy, in order to deliver outstanding customer satisfaction, and contribute to the ongoing training and development of assigned team members. 25 clinical studies for clients located in Israel, Switzerland, Denmark, and France.

COVANCE CENTRAL LABORATORY SERVICES

REGIONAL TEAM MANAGER AND PROJECT MANAGER ROLES
Geneva, Singapore, Shanghai, Tokyo
2000 - 2014

Held roles of increasing responsibility from operational support to regional leadership in Global Project Management. Led and developed Project management teams across Asia-Pacific, implementing global standards and driving service excellence. Contributed to strategic initiatives including the Japan Kit Production setup and internal capability-building programs. Acted as primary sponsor liaison to ensure quality, compliance, and client satisfaction in global trial delivery.
